EDHE 832 Course Change Proposal Attachment

Complete Current Description:

832 -- Seminar in Higher Education. (3) (Prereq: EDHE 730 or consent of instructor) Selected topical problems in higher education for advanced graduate students interested in the administration of higher education or college teaching. Possible topics include: evaluation, accountability, management, the learning society, the financial crisis, coordination vs. autonomy. Case studies will be used.

Complete Proposed Course Description:

832 -- Seminar in Higher Education. (3). Selected topical problems in higher education for advanced graduate students interested in the administration of higher education or college teaching. Possible topics include: evaluation, accountability, management, the learning society, the financial crisis, coordination vs. autonomy. May be used on a program of study up to three times.

Rationale for Changes Statement:

1. Eliminating the case study statement. We are eliminating the case study statement because case studies may or may not be used in a specific offering of EDHE 832 depending on the topic and instructor.
2. Eliminating the EDHE 730 or consent of instructor prerequisite requirement. The topics and information covered in EDHE 730 are not required for students to be successful in EDHE 832. Consent of the instructor is also not required.
3. Adding in the statement: "May be used on a program of study up to three times." We are doing this because a wide variety of topics are covered under this course number. All of the classes cover different topics and use different materials, so students often take this course multiple times. This is an appropriate opportunity for students to explore a variety of topics in higher education.
