Subject: RE: EDTE 402

Hi, Ed,

On behalf of the Business and Technology Education teacher preparation program, I concur with the proposal to change EDTE 402 and 402P to EDSE 402 and 402P.

Best wishes,
Bob Brookshire

Cynthia, Bob Pruzin, and Bob Brookshire:

Earlier this month, I sent you the email message below regarding the plans of the Secondary Education programs to change EDTE 402 and 402P to carry an EDSE designator. Cynthia and Bob Pruzin indicated that this posed no problem to their units.

Could I trouble you respond to this email with a specific statement along the lines of:
"On behalf of my teacher preparation program in <Art, Music, Business Education>, I concur with the proposal to change EDTE 402 and 402P to EDSE 402 and 402P."

With your concurrence we will move the proposal forward to Faculty Senate.

Thanks, Ed.

Subject: EDTE 402

Colleagues whose programs require EDTE 402:

5/31/2010

Currently only the Secondary Education program in the College of Education requires EDTE 402 and 402P within a degree. These courses are required for all undergraduates majoring in areas that lead to admission to the MT program in English, Mathematics, Science and Social Studies. The course and practicum now focus exclusively on grades 9-12 teaching, different from when they were initiated and required in the Early Childhood and Elementary MAT programs.

The Secondary Education program is preparing a proposal to change the course designators of EDTE 402/402P to EDSE to more clearly reflect the secondary education focus. We may also revise the course descriptions.

First, we want those of you leading K-12 and 7-12 programs to be aware of this grade level emphasis change. We will support any proposals you might have to create a new version of 402 unique to your teacher candidates (and staffed by your faculty), or, if you feel the course is no longer useful to your program, we will support deletion of the course requirement(s). Some of your programs do not require 402P, but be aware that the practicum is a co-requisite that will be enforced in the future (by 2011-2012) and for all applying for admission to the MT in 2010-2011.

Please let me know if you concur with our proposal to change the designator to EDSE or if these changes pose any concerns that will impact your programs negatively. The Secondary Education program will be happy to discuss concerns you might have and seek mutually agreeable solutions.

Best, Ed.

Ed,

With regard to changing the designation of EDTE 402 and EDTE 402P to EDSE 402 and EDSE 402P, the School of Music teacher education program concurs with the College of Education's request and has no problem with the change.
