Lexington School District Two and the University of South Carolina have developed an exciting, interactive science and technology enrichment program for middle school students in the greater Columbia area. (Rising 6th - 8th graders)

July 7 – 11, 2014
Monday through Friday morning
9:30 a.m. – 12:30 p.m.

Northside Middle School
157 Cougar Dr.
West Columbia, SC 29169

Join us as we investigate the world of science through interactive, hands-on units
Rising 6th graders explore: Energy + Force & Motion
Rising 7th and 8th graders explore: Genetics & Earth Structures

Don't pass up this opportunity to experience fun, hands-on science and technology lessons that will increase your skills and prepare you for success. The program was produced with funding from a Math and Science Partnership Grant from the South Carolina Department of Education. Participation commitment is requested for all 5 days.

**Program Fee $25.00**

Online application is available at the USC Marketplace
